

Join the dots from No. 1 to No. 119 and you will see a hazard that has something to do with me.

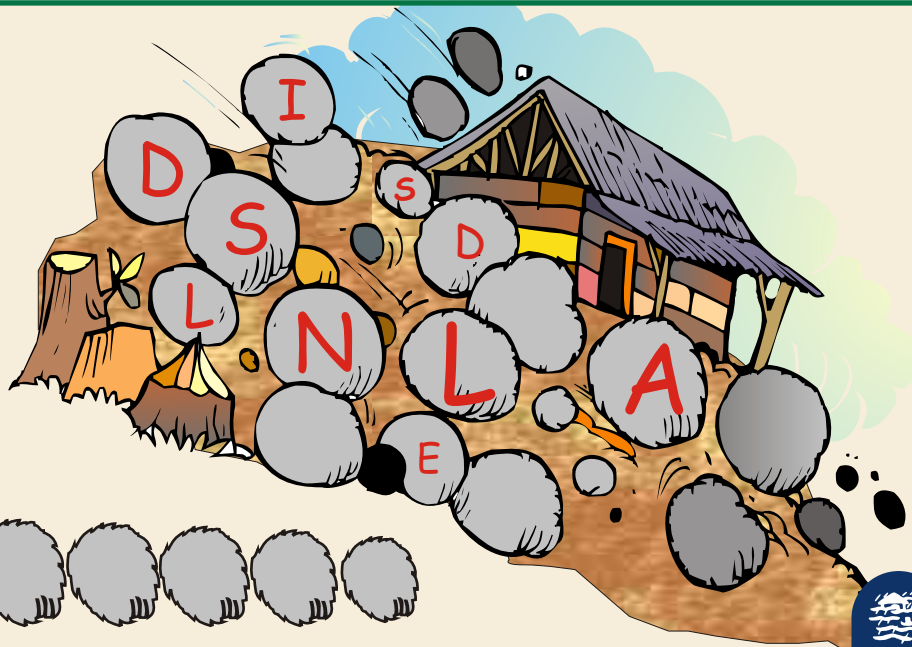

Arrange these letters in the right order and you will discover something that increases the vulnerability of many communities to rain and landslides.

--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

Sort out by size the letters you find in the drawing, from largest to smallest. You will discover the name of a hazard that has destroyed entire communities because they were located in dangerous places.
